

INTRODUCING...

EMPLOYER DIRECTED HEALTH PLAN

WE'VE CREATED A BETTER HEALTHCARE SOLUTION.

Our program is designed for small, mid-size, and large employers.

For LARGE employers, we offer a variety of stop-loss options, aggregate accommodations, and value-added benefits that allow employers to truly customize their SELF-FUNDED EMPLOYER DIRECTED HEALTH PLAN in order to recruit and retain the best qualified among us.

For SMALL to MID-SIZE businesses, we are excited to introduce a solution designed to provide the network coverage and ease of administration of a fully insured plan with the savings and unique solutions that self-funding delivers: LEVEL FUNDED EMPLOYER DIRECTED HEALTH PLAN.

Unparalleled Technology

Cutting edge technology partners utilize tools and support resulting in reduced cost and ease of administrative expenses.

Supply and Demand

A collective volume of employees creates leverage and allows us to achieve volume-based discounts for you.

Actionable Data

Our plan equips the employer with actionable data designed to drive an effective benefits strategy. 100% transparency on costs.

E.R.I.S.A. Based Plan

100% of unused expected claims dollars are returned to the employer-not a reduced % and not with the condition of renewing with the plan.

TAKE BACK CONTROL.

Our new VSCCPA Employer Directed Health Plan offers favorable pricing, special underwriting provisions, aggregate accommodation, waiver of aggregate minimums, extended run-out coverage, and the opportunity to receive a refund at the end of the plan year for unused premium dollars earmarked for paying claims.

Your partner.
